

SKI WITH CARE & CAUTION Watch for both natural and man-made obstacles. Ice, thin or bare spots and variations of the snow surface can and do exist. Be alert to continually changing conditions. Snow, ice, sheer drop-offs, bare ground, rocks, roots, stumps, trees, lifts and snowmaking towers, ruts, bumps and many natural and man-made objects are part of the inherent risks of all alpine activities. Falls or collisions with objects can cause catastrophic injury or death. Ski area vehicles may be in operation at any time on open terrain.
DO NOT SKI/RIDE NEAR SUCH VEHICLES OR EQUIPMENT. Fences, bumpers, pads, poles, signs, ropes and other apparatus are used as "Skier Awareness Devices." They mark hazards or obstacles and will not protect you from injury. Your safety is directly affected by your judgement. Failure to follow the posted "Your Responsibility Code" may result in the loss of skiing/snowboarding privileges.
